Electronic cigarettes

Flying to and from Jordan:

Make sure your electronic devices are charged before you travel. If your device doesn't switch on when requested, you won't be allowed to take it onto the aircraft.

Batteries for your device:

There are restrictions on lithium cells and batteries[1] for items such as laptops, cameras and mobile phone. Check with your airline before you travel.

Gas-powered hair curlers:

You can take hair curlers containing a gas cartridge in checked or hand luggage as long as the safety cover is fitted at all time. You must not take separate gas cartridges on board
