If you do take liquids in your hand luggage

- Containers must hold no more, or labeled 100ml or less.
- Containers must be in a single, transparent, resealable plastic bag, which holds no more than a liter and measures approximately 20cm x 20cm
- Contents must fit comfortably inside the bag so it can be sealed
- The bag must not be knotted or tied at the top
- You're limited to 1 plastic bag per person
- You must show the bag at the airport security point

Exemptions: You can take liquid containers larger than 100ml through security only if they:

- Are for essential medical purposes
- Are for special dietary requirements
- Contain baby food or baby milk

Prohibited Medicines

Traveling with Medications: When traveling with prescription or over-the-counter medications:

- Pack the medications in your carry-on luggage in their original, labeled containers to facilitate airport security and customs screening procedures.
- Prescription medication is exempted from liquid restrictions but must be presented to the screening officer separately from your carry-on luggage, alongside a copy of the original prescription form.
- Each medication must be stored in its original manufacturer package and must not be combined with others in a single container.
- Prescription medications known to be used by drug abusers must be accompanied by a prescription form indicating its purpose to be presented to the security officer.

Admitting Prescription and Over-the-Counter Medications to Jordan

- Passengers are permitted to admit a single course or 90-day supply - whichever is less based on the directions for use - of treatment or over-the-counter drugs. The medication must be for your own use or for the use of a person traveling with you and for whom you are responsible. The medication must be shipped or carried in hospital or pharmacy-dispensed packaging, in the original retail packaging or have the original label attached that clearly indicates what the product is and what it contains.
